MISSION:
PREVENT AND
CURE SKIN
CANCER

SCI TEAMS UP WITH UA ATHLETICS DEPARTMENT

In an effort to protect our UA athletes, the SCI and Arizona Athletics at the University of Arizona have teamed up to share sun safe messaging and sunscreen with UA students involved in school sports.

SUNSCREEN STATIONS GET A NEW LOOK

To stay current and supply a user-friendly product, the SCI is updating the sunscreen stations that we use and rent for special outdoor events. Over the years, these stations have been utilized by UA campus organizations, as well as many outdoor events, such as the annual Festival of Books.

For more information on how to rent these sunscreen stations, contact:

Denise Spartonos:

520-626-1037

denises@email.arizona.edu

The Sun Safety & Skin Cancer Prevention Initiative will bring together a team of SCI and UA Athletic department staff and faculty, along with the Student Athlete Advisory Committee (SAAC). The SCI will develop sun safety materials to be added into the current class that all students take when they join the athletic department.

We hope this training will be added to mandatory annual performance and safety training.

In addition to the education and training, we aim to get sunscreen stations with

signage placed at outdoor sports venues. This sunscreen would be offered to both athletes and visitors.

Here's to making the UA campus a sun safe campus!

SADDLEBROOKE FUNDRAISER

MANY THANKS TO THE SADDLEBROOKE COMMUNITY!

The SCI teamed up with The SaddleBrooke Tennis Club and The University of Arizona Women's and Men's Tennis Teams in November to raise skin cancer awareness and provide education on skin cancer prevention and detection.

The event raised over \$6,000 in funds to continue our mission to prevent and cure skin cancer. We are so lucky to have the support of the UA tennis teams, and the SaddleBrooke Tennis Club.

Thank you!

MARCH

March 4th- Sun Safety Day

12-3pm @ UA Campus Recreation Pool

March 6th - Brewers Sun Safety Day

1:05 @ American Family Fields of Phoenix

March 14 & 15- Festival of Books

All weekend on UA Campus

APRIL

April 20th- SPF Luncheon

11-2pm @ Arizona Inn

MAY

Skin Cancer Awareness month

Welcome to our newest members

SALLY DICKINSON

Sally is an Assistant Professor in Pharmacology. Her current research focuses on UV-induced skin cancer with a focus on molecular signaling pathways as targets for chemoprevention.

DELANEY STRATTON

Delaney received her DNP and her Ph.D. in Nursing at the University of Arizona. Her research includes early detection and prevention in skin cancer, and how technology and nurse practitioners can positively impact these topics.

Skin cancer Prevention Friends'

Spring Luncheon

Monday, April 20th • 11:30-2pm
Arizona Inn-The Tucson Room
2200 East Elm Street

SAVE THE DATE

Join us for our 5th annual
Skin cancer Prevention Friends' (SPF) Luncheon
Guest Speaker: Kelly Nelson, MD FAAD
MD Anderson Cancer Center-University of Texas
